

MD. NAHID HASAN SAGOR

MERN stack web developer

✉ nahidhasan141400.main@gmail.com

☎ +880 17410-13363

📍 Mirpur, Dhaka, Bangladesh

🔗 <https://nahidhasan141400.github.io/nahidhasan141400/>

I am a full-stack web developer specializing in the **MERN** stack, including **Next.js**. I have been working with **JavaScript**, **React**, **Node**, and **MongoDB** for about 2 years, and Next.js for the past few months. With my expertise, I create responsive and interactive web applications. Whether it's building a simple landing page or a complex e-commerce website, I enjoy turning ideas and concepts into reality through code. I'm passionate about writing clean, organized, and scalable code that works well and solves real problems

Professional Experience

Oct 2022 – present
Dhaka, Bangladesh

Web Developer, Dewan ict [🔗](#)

As part of my role at Dewan ICT, I take charge of designing and developing business software solutions using the MERN technology stack. I also provide tailored solutions to clients based on their specific requirements

Education

Oct 2022 – present
Dhaka, Bangladesh

BSC in computer science and engineering, Institute of Science Trade and Technology [🔗](#)

I am currently studying BSC in Computer Science and Engineering at ISTT (Institute of Science Trade and Technology), actively seeking opportunities to apply and expand my knowledge in a dynamic and challenging environment.

Projects

Jun 2023 – present

Dynamic E-commerce, use next-js [🔗](#)

Designed and developed a dynamic e-commerce website using Next.js, offering versatility to accommodate any brand and provide a seamless online shopping experience for customers.

Oct 2022 – present

Training Institute management, use mern stack

I developed a institute management system using the MERN stack. This system effectively handles student enrollment, attendance tracking, course scheduling, and performance evaluation in an educational institute. I focused on creating a user-friendly interface with responsive design, enabling smooth navigation and an exceptional user experience.

Nov 2022 – Dec 2022

Event registration Web Application, use express-js and ejs

I designed and developed an event registration system using Express.js and EJS. This system allows users to conveniently book events online and receive authorized invite cards by making secure payments through an online payment gateway. Notably, the system has been successfully utilized by SSC04Star Group and featured on NTV [🔗](#) for seamless IT support

Mar 2022 – Sep 2022

Boom, use next js [🔗](#)

Developed an e-commerce food ordering website using Next.js, enabling customers to easily browse and order their favorite food items online with a user-friendly interface and efficient functionality. live link: <https://boom-nahidhasan141400.vercel.app/>

Jan 2022 – Feb 2022

NMovies, use JavaScript [🔗](#)

This is a small movie streaming website

Languages

Bangla

English
